Reason for Allowance

1. The following is an examiner's statement of reasons for allowance:
 - I. the present invention is capable of preparing the pipeline for processing while in a plurality of stages. Not just initially before the data is passed into the pipeline, but also while the data is inside the pipeline. Dargel teaches away from this possibility as it teaches that programming and/or "preparation for processing" only occurs initially and not when the data has reached an intermediate stage where it is already inside the pipeline.
2. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
